- Whitlands Engineering can organise freight to a depot nearest to you.
- Depots must have forklift facilities for unloading.
- All machines are packed securely on a pallet and require some assembly by the customer.
- Orders can be collected from our factory by prior arrangement and will be fully assembled.
- Orders collected from our factory need to be loaded into a 8x5 Trailer (or flat ute tray) or be fitted with a road legal kit with registration.
- Whitlands Engineering will quote separately on freight for destinations outside of main depots.
